

Bringing Hope Home is a non-profit organization that provides Unexpected Amazingness to families with cancer through financial and emotional support. Through our Light of Hope Family Grant Program, we offer a one-time grant to pay essential household bills for families with cancer.

We invite you to join us in our ongoing efforts to help families with cancer by being a part of our Box of Hope Volunteer Program. When an individual is going through cancer treatments, it takes a toll on both their physical and emotional health. With the help of volunteers like you, we can provide individuals undergoing cancer treatment with a box of Unexpected Amazingness to brighten their day. Think of your

Box of Hope as a "Get Well Soon" package containing items that will help them through their treatments.

This packet contains a step-by-step guide on how to create your own Boxes of Hope. We encourage you get creative; these steps are meant to guide you through the process. If you have any questions, please call the BHH office at 484-580-8395 or email Paige Lacek at paigelacek@bringinghopehome.org.

Step 1: Form a team.

While individuals are more than welcome to do this project, we encourage you to form a team of people to help assemble your boxes. This project is a great team-building opportunity!

Step 2: Gather your materials.

You will find a list of suggested items on the following page. This list contains items that will help families undergoing treatments with their physical needs as well as provide entertainment. Feel free to include any items you feel are appropriate. We encourage you to provide no more than 5-10 items per box. We also encourage that the items are appropriate for adults, as most boxes will be given to adult patients who are undergoing cancer treatment. It is up to you and your team to collect these items, whether it be through donations, or by shopping for them yourselves.

We ask that the boxes be about the size of shoe box so that they can be stored at the hospital that will be receiving the boxes. You can also use gift bags if it is more convenient.

Step 3: Assemble your boxes.

This is the fun part! Be as creative as you would like when assembling or decorating your boxes. The “Box of Hope” sticker which you can add to your boxes can be found on the next page. Please print the stickers out and fill in the blank with you or your company’s name.

Step 4: Drop-off.

Once your boxes have been assembled, please let your contact at BHH know how many you have put together. We ask that you hold onto the boxes until BHH has made arrangements for you and your group to deliver the boxes to a local hospital or cancer center. We will share details of the delivery with you so that you can bring them directly to the hospital that will be sharing the boxes with their patients!

Potential Items to Include:

Activities
Magazines
Crossword Puzzles
