

Bringing Hope Home is a nonprofit organization that pays household bills for local families with cancer. We keep people's lights on, food on the table, and the heat turned up while they are going through a really tough time. Join Hope Nation today by creating your very own "Hopeful Home" and collecting money for BHH families!

### Materials

- Milk carton
- Glue and/or tape
- Tissue paper, construction paper, or wallpaper
- Other collage materials (optional)
- Scissors (adult only)
- Markers and crayons

### Instructions:

1. Give each child a milk carton to decorate with glue and tissue paper, construction paper, or wallpaper. If desired, they also may glue a few collage materials on their cartons, such as buttons or pompoms.
2. Transform your milk carton into a "Hopeful Home" using your creativity and supplies
3. When the children have finished decorating their cartons, make a slit on one top side of the carton (adult only). Make sure the slit is wide enough so that coins will slide through easily.
4. Children can use these as piggy banks to collect money for local families with cancer. Demonstrate how to put coins into the slit and how to open the carton to empty the piggy bank.
5. When your home is full, send your donations to Bringing Hope Home at 641 Swedesford Rd. Malvern, PA 19355. BHH will be in touch with information on the family you are helping with the money raised!
6. Congratulations... you are now a member of Hope Nation!

Unexpected amazingness  
for families with cancer.
