

PROVIDING UNEXPECTED AMAZINGNESS TOGETHER.

Bringing Hope Home (BHH) is a nonprofit organization that provides financial support to Families and individuals with cancer in the greater Philadelphia area. Last year through the Light of Hope Family Program, we supported over 1,000 Families struggling during their cancer treatment. BHH paid their rent, mortgage and household utility bills. Since our inception in 2008, we have assisted over 9,500 Families with over \$11.4 million in support. There are several ways that your hospital or cancer center can support our mission.

1. HOSPITAL PARTNERSHIP PROGRAM

BHH is now offering a Hospital Partnership Program that allows hospitals and cancer centers to refer additional Families in need to the Light of Hope Family Program for support. Through this partnership, social workers can refer 3 Families per month to BHH's program, instead of the 1 referrals we can typically accept.

HOW IT WORKS

- Light of Hope Family applications are accepted on the 1st business day of each month. Our BHH Family Department team connects with every Family to discuss their needs and to ensure our funding helps in the best way possible.
- The BHH Family Department works closely with the referring social worker to ensure all Families are assisted in a timely manner.
- Applications are processed within 1-3 weeks of submission.
- Payments are generated in the form of a check and mailed directly to each prospective vendor.
- Once the Family's application has been processed, BHH generates a summary of bills paid and an invoice for half of the Family's total grant & emails the information to the hospital partner for reimbursement. There is also an option to prepay for the year.
- BHH sends a cobranded letter to the Family & referring social worker, advising them which vendors were paid, the dollar amount, and all check information, so that the Families and social workers are aware of the support provided by both BHH and the hospital partner. *Recognition by the hospital partner on the Family follow-up letter is optional.
- Hospital partners are listed on the Partnership page of our company website: bringinghopehome.org/partnerships
- This Program is available to all hospitals, cancer centers and health systems that BHH currently works with.

The Hospital Partnership Program allows us to serve the ever-growing need and deviates from having a Family being placed on a wait list for services that can be of an urgent matter. If you are interested in becoming a hospital partner, please contact Amy Seybold, Chief Operation Officer, at amyseybold@bringinghopehome.org or call 484-580-8395, ext. 101.

2. SPONSOR AN UPCOMING BHH EVENT

BHH hosts a variety of fun, energetic events to raise money and engage with our community throughout the year. Funds raised at our Signature Events allow us to financially support local Families with cancer. A list of our upcoming events can be found on the right. We offer various sponsorship opportunities at each of our events, from \$500 to \$20,000. Sponsoring an event not only allows your hospital or cancer center the opportunity to support BHH and provide direct assistance to local Families with cancer, but it also allows members of your leadership and/or social work teams to attend the event to learn more about BHH, meet our staff, and interact with Hope Nation. Each level of sponsorship also includes various marketing entitlements, as well as great networking opportunities.

2024 UPCOMING EVENTS

- March 21, 2024
